

非织造改变世界  
NONWOVEN CHANGES THE WORLD

GUANGDONG HUIMING  
NONWOVEN TECHNOLOGY CO.,LTD

# ABOUT HUIMING

---

As a high-tech enterprise integrating R&D, production, sales and service of non-woven materials, the company has been deeply engaged in fields such as beauty, medical, hygiene, filtration, antibacterial, construction and packaging materials. Equipped with multiple advanced production lines, first-class technical talents and a strict quality management system, it has won high recognition in the industry for its quality and service.

After years of focused R&D and production, our company has now stepped into the rank of leading enterprises in the application field of domestic non-woven materials, and has successively become a high - tech enterprise, the Vice President Unit of Guangdong Indoor Environmental Health Industry Association, and a Member Unit of Guangdong Medical Device Industry Association.

The company possesses numerous invention patents and utility model patents, and has achieved fruitful results in the fields of air filtration materials, liquid filtration materials, functional non-woven materials, medical consumables, beauty and daily chemical materials, construction geotechnical auxiliary materials, etc. Products are widely used in extensive fields such as automobiles, white goods, labor protection, industrial purification, medical auxiliary materials, beauty and daily chemicals, geotechnical building materials, etc., such as oil and fuel filters, air purifiers, vehicle purifiers, household humidifiers, fresh air system filters, civil masks, industrial masks, gas masks, ventilators, medical disposable protective covers, formwork fabrics and formwork fabric spray adhesives, makeup remover and nail polish remover cotton, and various other products.

The company upholds the mission of "Changing the World with Non-woven Materials", adheres to the corporate spirit of "Clear Goals, Unswerving Commitment, Hard Work Pays Off, and Sustainable Operation", and continuously creates value for various industries in society, enabling more people, families, and organizations to benefit from non-woven material services.

As a professional manufacturer of deep-processed non-woven material products, Huiming's vision is to become a leading enterprise in the application field of China's non-woven material industry, enabling every employee to live a dignified life, every customer to obtain high-quality products, and every product to realize its due value.

The company strictly adheres to the requirements of the ISO quality management system, always remembering that quality is the cornerstone of an enterprise's survival. It accurately transmits customers' requirements and expectations throughout the entire production process to jointly build quality. Upholding the business philosophy of "Integrity, Dedication, Innovation, Collaboration, Learning", the company balances opportunities and risks with employees and customers to strive for sustainable development.

Huiming promises to provide customers with high-quality products and services. We thank new and old customers for their support and welcome you to walk alongside Huiming to share in growth.

# PRODUCT CATEGORY

---

## Gaseous Purification Series

—— Formaldehyde removal, ammonia removal, TVOC removal, dust removal, particulate matter removal, PM2.5 removal.

Mainly includes electrostatic electret melt-blown filter materials, high-efficiency low-resistance electrostatic filter cotton, composite skeleton non-woven fabrics, modified activated carbon interlayer fabrics, and other composite filter materials.

## Liquid Purification Series

—— Residual chlorine removal, antibacterial, mildew removal, impurity removal, slag filtration, oil absorption, oil-gas filtration.

Mainly includes modified activated carbon filter cotton, antibacterial filter cotton, antiviral filter cotton, oil-gas separation filter cotton, food-grade filtration and special non-woven fabrics for packaging.

## Functional Non-woven Series

—— Antibacterial, antiviral, formaldehyde removal, flame retardant, oil absorption, waterproof, high temperature resistance, UV resistance and anti-aging.

Mainly includes antibacterial and antiviral skeleton fabrics, formaldehyde-removing skeleton fabrics, flame-retardant oil-absorbing non-woven fabrics, modified activated carbon non-woven fabrics, high-temperature and aging-resistant non-woven fabrics, etc.

## Medical and Hygiene Series

—— High elasticity, water repellency, hydrophilicity, light shielding, antibacterial, antiviral.

Mainly includes electrostatic electret melt-blown fabrics, horizontal elastic non-woven fabrics, vertical elastic non-woven fabrics, composite elastic non-woven fabrics, composite light-shielding materials, etc.

## Beauty and Daily Chemical Series

—— High breathability, high water absorption, high tensile strength, with biocompatibility reports.

Mainly includes depilatory wax paper base fabrics, hand and foot mask base fabrics, facial mask base fabrics, cotton pad base fabrics, etc.

## Geotechnical and Building Materials Series

—— Patented products, waterproof materials, high-breathability materials, high tensile strength.

Mainly includes special waterproof and breathable formwork fabrics for concrete formwork, special spray adhesives for formwork fabrics, geotextiles, seepage-proof membranes, waterproof coils, etc.

# Guangdong Huiming Non-woven Technology Co., Ltd.

## Medical Mesh Isolation Film

Mesh isolation films are commonly used in medical dressings and beauty & health rehabilitation scenarios, such as liquid filtration, blood pump filtration, and inner-layer filtration of masks. They are often compounded with other non-woven fabrics (ES cotton, needle-punched non-woven fabrics, dust-free paper, etc.) for processing into materials like wound plasters, absorbent pads, absorbent cotton, and absorbent paper. These films feature functions such as isolating direct contact between products and skin, filtration, and breathability.

## Product Specifications

1. Product Materials: Medical-grade PE
2. Product grammage: 15-18gsm, 18-20gsm
3. Product thickness: 0.01-0.02mm
4. Product specifications: 850mm-1200mm, 1500m/roll (width can be customized and slit)

## Product Features

1. Uniform mesh distribution, easy to paste and peel, and no residual adhesive after peeling.
2. Soft and skin-friendly texture, high transparency, and good breathability.
3. Medical-grade environmentally friendly materials, ensuring hygiene and peace of mind.

### **Medical Mesh Isolation Film Composite Medical Sterile Dressing**

Our company's medical mesh isolation film, when compounded with disposable sterile dressings, is used for external anti-infection application. The compounding enhances the softness of the dressing surface, effectively preventing the dressing cotton from directly contacting the skin and sticking to the wound. It is commonly used for infection prevention in external wounds.

### **Medical Mesh Isolation Film Composite with ES Cotton**

When the medical mesh isolation film is compounded with ES filter cotton, it can enhance surface comfort, isolate chemical fibers and bacteria, absorb moisture and wick away sweat. It is applicable for medical filtration, medical dressing accessories, etc.

### **Medical Mesh Isolation Film Composite with Needle-punched Absorbent Cotton**

When the medical mesh isolation film is compounded with the surface of needle-punched cotton, it protects the product from fiber debris shedding and prevents fiber balls from forming on the surface. It can be used for medical wiping cotton, medical absorbent pads, wound plasters, medical auxiliary materials, etc.

### **Beauty BB/CC Cream Cushion Core**

When the medical mesh isolation film is compounded with the surface of polymer fiber cotton, it resists wrinkling and shedding, and can filter silicone-oil-containing cosmetic materials. It is skin-friendly and comfortable, commonly used in cushion foundation isolation cotton, CC/BB cream cushion cores, etc.
