

非织造改变世界
NONWOVEN CHANGES THE WORLD

GUANGDONG HUIMING
NONWOVEN TECHNOLOGY CO.,LTD

ABOUT HUIMING

As a high-tech enterprise integrating R&D, production, sales and service of non-woven materials, the company has been deeply engaged in fields such as beauty, medical, hygiene, filtration, antibacterial, construction and packaging materials. Equipped with multiple advanced production lines, first-class technical talents and a strict quality management system, it has won high recognition in the industry for its quality and service.

After years of focused R&D and production, our company has now stepped into the rank of leading enterprises in the application field of domestic non-woven materials, and has successively become a high - tech enterprise, the Vice President Unit of Guangdong Indoor Environmental Health Industry Association, and a Member Unit of Guangdong Medical Device Industry Association.

The company possesses numerous invention patents and utility model patents, and has achieved fruitful results in the fields of air filtration materials, liquid filtration materials, functional non-woven materials, medical consumables, beauty and daily chemical materials, construction geotechnical auxiliary materials, etc. Products are widely used in extensive fields such as automobiles, white goods, labor protection, industrial purification, medical auxiliary materials, beauty and daily chemicals, geotechnical building materials, etc., such as oil and fuel filters, air purifiers, vehicle purifiers, household humidifiers, fresh air system filters, civil masks, industrial masks, gas masks, ventilators, medical disposable protective covers, formwork fabrics and formwork fabric spray adhesives, makeup remover and nail polish remover cotton, and various other products.

The company upholds the mission of "Changing the World with Non-woven Materials", adheres to the corporate spirit of "Clear Goals, Unswerving Commitment, Hard Work Pays Off, and Sustainable Operation", and continuously creates value for various industries in society, enabling more people, families, and organizations to benefit from non-woven material services.

As a professional manufacturer of deep-processed non-woven material products, Huiming's vision is to become a leading enterprise in the application field of China's non-woven material industry, enabling every employee to live a dignified life, every customer to obtain high-quality products, and every product to realize its due value.

The company strictly adheres to the requirements of the ISO quality management system, always remembering that quality is the cornerstone of an enterprise's survival. It accurately transmits customers' requirements and expectations throughout the entire production process to jointly build quality. Upholding the business philosophy of "Integrity, Dedication, Innovation, Collaboration, Learning", the company balances opportunities and risks with employees and customers to strive for sustainable development.

Huiming promises to provide customers with high-quality products and services. We thank new and old customers for their support and welcome you to walk alongside Huiming to share in growth.

PRODUCT CATEGORY

Gaseous Purification Series

—— Formaldehyde removal, ammonia removal, TVOC removal, dust removal, particulate matter removal, PM2.5 removal.

Mainly includes electrostatic electret melt-blown filter materials, high-efficiency low-resistance electrostatic filter cotton, composite skeleton non-woven fabrics, modified activated carbon interlayer fabrics, and other composite filter materials.

Liquid Purification Series

—— Residual chlorine removal, antibacterial, mildew removal, impurity removal, slag filtration, oil absorption, oil-gas filtration.

Mainly includes modified activated carbon filter cotton, antibacterial filter cotton, antiviral filter cotton, oil-gas separation filter cotton, food-grade filtration and special non-woven fabrics for packaging.

Functional Non-woven Series

—— Antibacterial, antiviral, formaldehyde removal, flame retardant, oil absorption, waterproof, high temperature resistance, UV resistance and anti-aging.

Mainly includes antibacterial and antiviral skeleton fabrics, formaldehyde-removing skeleton fabrics, flame-retardant oil-absorbing non-woven fabrics, modified activated carbon non-woven fabrics, high-temperature and aging-resistant non-woven fabrics, etc.

Medical and Hygiene Series

—— High elasticity, water repellency, hydrophilicity, light shielding, antibacterial, antiviral.

Mainly includes electrostatic electret melt-blown fabrics, horizontal elastic non-woven fabrics, vertical elastic non-woven fabrics, composite elastic non-woven fabrics, composite light-shielding materials, etc.

Beauty and Daily Chemical Series

—— High breathability, high water absorption, high tensile strength, with biocompatibility reports.

Mainly includes depilatory wax paper base fabrics, hand and foot mask base fabrics, facial mask base fabrics, cotton pad base fabrics, etc.

Geotechnical and Building Materials Series

—— Patented products, waterproof materials, high-breathability materials, high tensile strength.

Mainly includes special waterproof and breathable formwork fabrics for concrete formwork, special spray adhesives for formwork fabrics, geotextiles, seepage-proof membranes, waterproof coils, etc.

Guangdong Huiming Non-woven Technology Co., Ltd.

Longitudinal elastic fabric

Longitudinal elastic fabric is an elastic non - woven composite fabric made from super - soft non - woven fabric and elastic materials through a series of processing. It has the advantages of appropriate tightness, skin - friendly softness, good air permeability, strong practicability, and economic benefits. It breaks the situation of traditional elastic materials such as being non - breathable, having overly tight retraction, and a small range of expansion and contraction. The product is widely used in industries such as medical and health consumables, fitness and body - shaping, and beauty and daily chemicals.

Product Names: Longitudinal Elastic Fabric, Composite Elastic Nonwoven Fabric, Pleated Elastic Fabric, Spandex Yarn Elastic Fabric, Stretch - type Elastic Nonwoven Fabric;

Product Weight: 80 - 160gsm (customizable as required);

Product Width: Within 1.55m (customizable as required);

Product Composition: PP, spandex (including 2mm spandex yarn and 4mm spandex yarn);

Product Advantages

1. Softness: The composite elastic nonwoven fabric is produced by compounding soft and skin-friendly nonwoven fabric with elastic materials. It comes in various colors and styles, featuring a soft hand feel, skin-friendly comfort, and refreshing breathability.
2. High Elasticity: The product has moderate tightness, strong elasticity, and excellent resilience, without excessive restrictive feelings. The longitudinal tensile ratio can reach 2.5 times, and it can naturally rebound after stretching. By adding high-quality hook and loop fasteners to the product, it can be turned into a strap-type product with adjustable tightening force.
3. Environmental Friendliness: The product complies with biocompatibility standards and can provide reports such as RoHS and REACH.
4. Diversified Styles: During production, combining nonwoven fabrics of different colors with spandex yarns of different spacing (2mm or 4mm) can create colorful nonwoven fabrics.

| Product Application Category | Product Applications |
|--|--|
| Medical Devices Elastic Materials | Surgical abdominal belts, high-end straps, baby umbilical cord binding belts, baby blue light protection hand and foot covers, blue light protection eye masks, health care medical belts, medical headbands and bandages, elastic fabric to prevent liquid penetration, medical bed sheets, and many other scenarios. |
| Health Care and Beauty Elastic Materials | Health belts, health eye masks, protective face mask headbands, mask ear bands, elastic bandages for cold compresses, women's menstrual pads, health pants, sauna pants, baby diapers, baby diapers, and many other scenarios. |
